

Construction

Plumbing

Campus: North Notts College

Code: NFECN005

About This Course

Our

plumbing courses will provide you with the skills needed for work in the domestic and industrial sectors. You will develop a combination of practical skills and theory-based knowledge, where you will learn how to:

- Install,
maintain, and repair central heating systems
- Fit
underfloor heating
- Work
with environmental technologies and gas
-

Understand

bending and jointing techniques

- Fit

sinks and taps.

Alongside

practical skills, you will also study welfare, site procedures, and health and safety in construction. You???ll also get to meet key employers in the trade and gain work experience that will enhance your CV. Find out more and apply below.

What Will I Study?

Level

1

This

qualification is for those wanting to enter the plumbing industry. It gives you the opportunity to pick up some core skills and knowledge which gives you the opportunity to progress onto either of our Level 2 and 3 Plumbing or Electrical Installation qualifications.

Level

This

qualification is for you if you are a 16-19 year old learner who wishes to work towards becoming a plumber in the building services industry. It has been designed to deliver a high level of occupational skills and provide a platform from which to progress through further learning through an apprenticeship programme or into employment. This vocational route at level 2 is a vital step towards becoming a competent plumber.

What

does the qualification cover?

The

qualification will help you gain an understanding of the skills required within the plumbing sector. You will cover compulsory aspects such as:

- Hot
Water
- Cold
Water
- Sanitation

- Central
Heating

Level

2 and 3 ??? Apprentice Route

City

& Guilds domestic heating and plumbing courses cover the essential knowledge and skills needed for a successful career in domestic plumbing and heating.

Areas of study include:

- Domestic hot and cold water systems
- Central
heating systems
- Sanitation
systems
- Environmental
technologies

- Gas safety

The

NVQ Level 2 plumbing and heating qualification is designed for anyone who wants to become a plumber or domestic heating engineer. It provides all the basic domestic heating and plumbing training you need to start working in the industry.

The

NVQ Level 3 plumbing and heating qualification is aimed at anyone who has already completed the Level 2 qualification, or who already has some relevant experience and knowledge. If you choose gas-related units at Level 3, you will achieve the Gas Safe licence to practise on successful completion of the course.

Evening

Course Adults Thursday evenings.

Construction

skills qualifications provide the ideal introduction to the construction industry and cover essential skills in plumbing.

For

individuals of any age wanting an introduction to the variety of construction trades, to gain skills in those areas, and perhaps to decide which trade is the right one to pursue a career in. No previous knowledge or experience is required.
