Introduction to Spreadsheets

Campus: North Notts College - Worksop Campus

Code: W04AC02

About This Course

This

course is tailored for beginners in spreadsheet usage, aiming to acquaint them with the fundamental concepts of Excel spreadsheet creation and utilization. The focus lies on utilizing the software for tasks such as printing, saving, and formatting sheets and charts, rather than delving into advanced sheet design.

Its purpose is to provide newcomers to either spreadsheets in general or Excel specifically with the essential skills to construct, format, save, and print spreadsheets and graphs effectively.

The aim of this course is to support those who wish to develop an understanding of basic photographic processes as well as understand how to manipulate images. You will also focus on the study of photography and provide opportunities to acquire a number of practical and technical skills in photograph

What Will I Study?

Understanding Spreadsheets

Exploring Excel: interface structure, Ribbon bar, Toolbars, and Task panes

Utilizing Help and accessing search functionalities
