North Notts College

Animal Care and Land-based Industries

Award In The Safe Application of Pesticides Using Pedestrian Hand Held Equipment

Campus: Dearne Valley College
Code: D10SP09
Level: 2

About This Course

This course is designed for spray operators and pest control technicians who require a certificate of competence for pesticide spraying using a Knapsack Sprayer. Upon successful completion, candidates receive an NPTC Level Two Award. The qualification is issued for life, though the NPTC recommends refresher training every three to four years.

What Will I Study?

You will study how to:
? Prepare a handheld pesticide applicator for work, calibrate it, and operate it safely to ensure the correct application rate without risk to yourself, others, or the environment.
? Read and use information on product labels to determine approved uses, potential hazards to human safety, non-target areas, and the general environment.
? Carry out daily and routine maintenance on the handheld pesticide applicator.
? Perform correct cleaning procedures for personal protective equipment (PPE) and application equipment contaminated with pesticides.

Why Study Here?

You will get hands-on experience and benefit from the agriculture facilities on campus.

Entry Requirements

You must be a minimum of 16 years old and must have successfully achieved the Level 2 Award in the Safe Use of Pesticides – Foundation Unit (PA1) prior to attending this course.

How To Apply

You can apply using our online application form and clicking the **Apply Now** button at the top of this page.

For more information support with your enquiry or application please contact Student Services by emailing learn@dearne-coll.ac.uk or by calling **01709 513333**.

What Courses Can I Progress Onto?

Level 2 Award in the Safe Use of Pesticides Ground Crop Sprayer PA2
Level 2 Award in Safe Use of Pesticides Slug Pellet PA4

Tuition Fees

Additional Information

This course is ideal for individuals aged 16 and over whose job involves applying professional pesticide products. It is highly suited for those currently working, or looking to work, in sectors where pesticides are utilised, such as agriculture, amenity/industrial, aquatic, forestry, and horticulture. You will be required to read chemical manufacturer guides and undertake an online exam. NPTC regulations do not allow candidates to have a reader for the exam. You will also need to bring specific clothing and equipment: a Type 6 limited splash coverall, nitrile rubber gloves (0.5mm thick, 300mm long), wellies, and a faceshield.

PLEASE NOTE

We make every effort to ensure information within our online course directory is accurate and a true representation of the courses we are offering in 2026-27. However, we do reserve the right to make changes if necessary.
